Good golly, a lolly!

A PIECE of cake

Lick your party into
shape with candy-
coated cakes-on-sticks

We're super fans of cakes and lollipops in the Cosmo Bride office, so imagine the sugar-rush of excitement when this genius book of recipes combining both arrived from POP Bakery. Once you've mastered the chocolate sponge (get your hens round to help roll out the cake balls) the easy-to-follow recipes make unique favours or a brilliantly original dessert. Our favourites include the cute Cupcake POPs (above) and the funky Leopard POPs (right) but there's a design for just about every style, including Russian dolls and fruit POPs.

POP Bakery by Clare O'Connell, £9.99, is published in hardback by CICO Books, available from bookshops. Or call 01256 302 699 quoting GLRSNA to purchase a copy at the special price of £7.99 including free p&p. Visit cicobooks.co.uk for more information. On sale from mid-May onwards.
